

Subject: A Time Sensitive Co-Investment Opportunity

Dear Prospective Investment Partner:

We are writing to you as the Board of Directors of the New Mexico Bioscience Authority (NMBSA) – a public private partnership that coordinates with the state government, municipalities, research institutions, national laboratories, and private industry to enhance the New Mexico bioscience industry. We are in the process of launching an exciting new co-investment opportunity that we believe will fit well with your current portfolio.

We seek a co-investment partner focused on bioscience start-up or entrepreneurial opportunities. We are reaching out to you because we understand that you are a potential partner who has experience in this domain with opportunities already in play.

Please find a project description of this opportunity including the financial and governance breakdown of the partnership as well as a Request for Presentation (RFP) that will give you the opportunity to participate in this exciting venture through the UNM Procurement Office at <https://bids.scquest.com/apps/Router/PublicEvent?CustomerOrg=UNM>. If you are interested in participating, please respond to this RFP by September 10, 2021.

If you have questions about this opportunity please feel free to contact our Executive Director, Stephanie Tofighi at 505-272-7441 or by email at stofighi@salud.unm.edu. Additional information about the NMBSA can be found on our website at <https://www.nmbioscience.org/>. We look forward to hearing from you and hope that we will have a chance to work together toward developing this partnership.

Kind regards,
NM Bioscience Authority Board of Directors

About the New Mexico Bioscience Authority

The mission of the NMBSA is to increase awareness and support for New Mexico's bioscience sector by attracting capital investors, influencing policy and assisting in infrastructure and business development. Our goal is to expand the bioscience industry, because it has the potential to be one of New Mexico's largest and most vibrant industries.
